DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This 2½ story painted brick house is located on the corner. The Hamilton Street facade has four 8-over-8 windows arranged in 2 bays. Each of these windows have wood blinds, stone sills and splayed brick lintels. There is a simple wood cornice at the roof line. Above is a peaked roof dormer with a slightly arched 6-over-6 double hung window.

The entrance is in the center of the symmetrical gable end wall on Morton Street. The two large chimneys are connected just below their tops by a horizontal continuation of the wall which obscures the peak of the gable. The entrance at sidewalk level is flanked by 2 six-over-six windows, each with one wood blind at its outer edge. The door has a single marble step, and its surround consists of 2 fluted pilasters, an entablature and a split pediment. All the windows are located between the two chimneys. On the second floor there are two 6-over-6 windows with wood blinds, one on each side of a 3 over 6 window, whose sill is above the other two. In the attic, a Palladian window is set into a shallow fully arched recess.
